ON THE ANXIOUS SEAT

Many Congressmen Have Not Yet Been Re-Elected.

A RATHER RESTIVE FEELING.

Many Conventions Have Been Held but There Is Many More Yet to Be Heard From — Legislation May Be Hurried Along on This Account as a Number of Congressmen Want to Get Home.

WASHINGTON, May 17.—Members of congress are growing more restive daily as word reaches them from home that the congressional conventions are being called and delegates chosen. Many conventions have already been held, and quite a number of the present members of the house have been renominated. These include Representatives Clark of Missouri, Fithian, Lane and Smith of Illinois, Johnson of Indiana and Layton of Ohio.

In the district of Representative Paynter of Kentucky the convention has been held, and Rolla K. Hart nominated, as Mr. Paynter declined to be a candidate. Finis Downing has been named for one of the new districts. Reports have been published that Representative Hopkins of Illinois had been nominated, and that Representatives McDannald of Illinois and Cooper of Indiana have been defeated, but the districts of these three members have not yet held their conventions.

Besides the conventions already held, many are set for the near future. The Missouri districts are especially active. Representative Morgan's (Missouri) convention is next week, and he has assumed that the instructions to delegates will renominate.

Representative Heard's (Missouri) convention is June 5, and his renomination is expected. Representative Hall (Missouri) is canvassing his district, and is said to be sure of a renomination. Representatives Blund and Hatch have little or no opposition in their districts. In Illinois all the Democratic congressional conventions at Chicago are set for July 10. The Republican conventions have not been called. Representative McDannald's convention is June 17. The conventions of Representatives Cannon and Hopkins are not far off. The other conventions have not yet been called.

In Indiana, the convention in Representative Johnson's district is the only one that has made a nomination. Several other conventions have been called for June and July. It is expected that Representatives Holman, Bynum and most of the other Indiana members now serving will be renominated.

Michigan has had no convention as yet, nor are any called. Chairman Campano of the Democratic committee was here recently, and arranged to have an early state convention. The congressional nominations will follow soon after Ohio. Representative Layton's district is the only one in which action has been taken. Three of the Republican conventions are set for June.

In Kansas, where a number of districts are represented by Populists, the Populist conventions are being called. That of Representative Davis is on June 7, and the Republican convention of the district will be tomorrow. The Minnesota and Wisconsin conventions are still far off, as are also most of them in the northwestern states. Most of the eastern congressional conventions will be late in the summer or in the early fall.

The practice in New England districts and through New York and New Jersey is to hold the conventions only a few weeks before the election. Some of the Pennsylvania conventions are being called, but the dates are late—that of Representative Erdman being Aug. 20.

Most of the southern conventions are also late, but the precinct contests are already proceeding actively. In Texas Representatives Gresham and Sevin have carried most of the precincts thus far contested. The West Virginia conventions are expected to be in August and those of Louisiana in September.

This activity in the districts throughout the country makes members anxious to get home and attend to their interest. They say the most effective work is done in the month leading up to the convention, instead of immediately before the meeting. The recent docking of salaries has made it very expensive to go home to attend a canvass. These considerations are urging members to hurry along with the legislation, complete the tariff bill and adjourn as soon as possible.

A BIG SWINDLING SCHEME.

It Was Worked Successfully in Various Cities Before Being Discovered.

NEW YORK, May 17.—An elaborate, but in a great measure futile, attempt to defraud the community by an extensive forgery of express money orders, has been traced to persons in St. Louis, and it is expected that all the guilty ones will be in custody in a day or two. The attempt was made on the Wells-Fargo Express company, and several of the forged orders, for small amounts, were cashed before the discovery was made. The bogus papers have been sold in all sections of the country.

The operator, being a stranger, professes inability to collect from the company because of the alleged impossibility of identifying himself as the owner of the money order. He usually approaches some reputable house or person, and the affair is so plausible and probable that the draft is disposed of without difficulty and the operator immediately disappears. In such cases the loss falls on the purchaser, and, no doubt, in this direction the aggregate of losses by these sharpers may be large. The company, however, will lose but a few hundred dollars in consequence of the early discovery of the counterfeit, which was made on Friday last.

COAL FAMINE.

One Is Practically in Existence Now in Pittsburgh.

PITTSBURG, May 17.—A coal famine, which has been threatening this city for some time, is now practically an established reality. The problem of how to get more has already passed the serious stage. Many of the railroad dealers have suspended business entirely and are simply waiting for the strike to end.

The Westinghouse Electric company is getting its supply of coal from Jutte & Company. Messrs. Jutte & Company would not say how long they expected to be able to supply them, but seemed to think they will have enough to run them.

Work at Aldred & Bender's red lead works at Sharpsburg was suspended Tuesday evening on account of no coal. This is the fourth plant to shut down up there. All the other mills in and about the city are preparing to shut down.

At the Brilliant waterworks crude oil is being sprayed under the boilers by a steam jet and burned as a fuel. This answers perfectly but can not be used in the city as insurance companies will not permit it.

Nearly every business house in this city is running short of fuel for their steam boilers. The problem of how to run engines without steam, or raise steam without fuel, now demands an answer. Gas is as scarce as coal, almost, and can not be got for firing boilers. The result of the Cleveland convention is therefore being awaited anxiously.

IN REGARD TO SAMOA.

Uncle Sam to Withdraw From the Berlin Agreement.

LONDON, May 17.—The Associated Press learns that United States Ambassador Thomas F. Bayard has intimated to the British government the desire of the United States to withdraw from the Berlin agreement, provided all the rights of United States citizens in Samoa are safeguarded.

The representatives in London of the Australian colonies recently intimated that it was the intention of their governments to persist in the request that the present arrangement be terminated. The imperial government replied that steps were being taken to reconsider the Berlin act and that pourparlers with Germany were proceeding. It is stated in good quarters that the Anglo-German negotiations will be greatly influenced by the results of the Ottawa conference.

SUGAR TRUST SCANDAL.

Senator Lodge Introduces a Resolution of Investigation.

WASHINGTON, May 17.—Senator Lodge soon after the senate met Wednesday introduced a resolution authorizing the appointment of five senators to investigate charges of attempted bribery of senators in connection with the pending tariff bill, and also the charges in a long article published in the Philadelphia Press on Monday morning, containing allegations relating to the influence of the sugar trust upon tariff legislation. He asked for the immediate consideration of his resolution, but Senator Cockrell asked that it lie upon the table until Thursday, which was done.

Fierce Newfoundlanders.

ST. JOHN'S, N. F., May 17.—Bay de Voide is still in a turmoil. The police were beaten and put to flight at Gull island. They had to threaten to use fire arms before the mob dispersed. The police went to arrest the leaders in the first attack. While engaged in this work a crowd surrounded and attacked them with clubs and stones and released the prisoners. The police were forced to abandon their purpose until strong reinforcements were sent to help them. It is expected that the next few days will develop additional riots, unless the threat to send a man-of-war has a quieting effect. The fierceness of the newspaper controversy is unprecedented. The most shocking charges are made by each side.

Death of Judge Wilson.

DUBUQUE, Ia., May 17.—Judge Thomas S. Wilson died yesterday afternoon, aged 81 years. He was admitted to the bar in Ohio in 1834, practiced law in Dubuque from 1837 until his death. In 1838 he was nominated as delegate to congress, and at the same time was appointed judge of the Iowa supreme court by President Van Buren. The appointment was renewed by Presidents Tyler and Polk, and he continued in the bench until 1847. He served several terms in state legislature and also as district judge.

Sentence Postponed.

WASHINGTON, May 17.—Counsel for Coxey, Browne and Jones, the leaders of the commonwealth army, have made application to Justice Bradley for a writ of certiorari to take the case out of the police court and certify it to the supreme court of the district for review. The case went over until Friday. Meanwhile an understanding has been arrived at by which the sentence of the defendants in the police court, which was to have taken place today, will be postponed, pending Judge Bradley's decision.

Suspended Animation.

TOLEDO, May 17.—A mysterious case of suspended animation is puzzling the physicians of this city. Mrs. Hannah S. Stevens, aged 86, of Washington township came to the city on May 3 to attend the golden wedding of her daughter, Mrs. W. L. Crabb. Since Sunday evening all efforts to arouse her have proved fruitless, and it is thought she is slowly sinking.

Only a Rainstorm.

LEBANON, Ind., May 17.—The cloudburst reported yesterday afternoon proved to have been a three hours' rain of unusual severity. The damage, however, was confined to the destruction of fences, small bridges and road grades.

IN THE HARBOR OF RIO.

How the Rebel Ship Shenandoah Was Captured by Captain Collins.

WASHINGTON, May 17.—The strained relations between Brazil and Portugal resulting from the extension by the Portuguese men-of-war of the right of asylum to the defeated rebel Admiral Du Gamma, recalls to the naval officers a complication of a similar nature in which the United States was involved with Brazil, and in which we were guilty of a much more flagrant violation of international law than is charged against Portugal.

It was in the days of our civil war, when the Alabama and Shenandoah and other Confederate cruisers were working havoc to our commerce, that Captain Collins of the United States steamer Waschussets finally cornered the Shenandoah in Rio harbor. The neutrality laws required that when belligerent vessels were sheltered in foreign ports one must give the other 24 hours the start.

By the operation of law Captain Collins had lost several possible captives, and he was determined that the Shenandoah should not escape him. So one night he got away, and made straight at the Shenandoah, intending to strike her "accidentally" in a collision. But the Waschussets struck her only a glancing blow. Captain Collins was not to be balked, and throwing boarders on the vessel, attached a cable to her and towed out of the neutral port and up to Hampden Roads, Va.

There was a great stir over this breach of international law, and, although Emperor Don Pedro was a wary sympathizer with the north, he could not overlook the indignity that had been put upon his country, and demanded reparation.

When the facts came out the United States had no defense, so Captain Collins was suspended and an ample apology was made to Brazil, and the Shenandoah was ordered to be returned in good order to Rio harbor.

By a mysterious accident, which never was fully explained, one of our gunboats, under way from Hampden Roads the night before the Shenandoah was to sail, ran into the ship and she was sunk at her anchorage, so that the Brazilian government was obliged to be content with the apology and Captain Collins' punishment.

BIG BOSTON BLAZE.

A Large Five-Story Building and Contents Entirely Destroyed.

BOSTON, May 17.—Fire started in the 5-story granite building of State street, corner of India street, at 2:40 o'clock this morning. It was first discovered in the United States appraiser's office and rapidly spread to the bonded warehouse connected therewith.

When the department arrived the flames had gained such headway that second, third and fourth alarms were immediately rung in. It started on the third floor and spread in all directions and soon made its appearance through the roof. At 3:10 the fourth alarm was pulled, and though over 30 engines were at work the flames were still spreading.

The fire was, however, confined to the appraiser's office, the sampling and weighing room and the bonded warehouse in the upper stories of the building. The loss will reach about \$35,000, partly insured.

The building was owned by Mrs. Paran Stevens, and is leased by the United States government. It is one of the finest constructed buildings in the city.

ARSENIC IN WATER.

Fourteen Persons Made Seriously Sick at Nashville.

NASHVILLE, May 17.—Fourteen persons were made seriously sick yesterday afternoon by drinking water, of which when analyzed, proved to have arsenic in it. Eight were firemen and six citizens, who had drunk of the water, which was in the cooler of the engine-house in South Nashville.

All of the firemen had used water from the cooler during the morning with no bad results, but all who drank after 2 o'clock were made deathly sick and several are in a critical condition. About 2 o'clock a stranger came in the engine-house and asked for a drink of water. He was shown the cooler, went to it and departed. No special notice was taken of him, but it was noticed after this incident that the men who drank were taken sick and the theory is that the stranger poisoned the water.

Spreading Smallpox.

GRAND RAPIDS, May 17.—There is great excitement here over the discovery that a colored man, suffering with smallpox, has been attending a trial in the circuit court for the past two days. His name is Silas White, formerly of this city, and he came from Chicago last Saturday to prosecute a case he has against ex-Sheriff McQueen for false imprisonment. He was sick when he arrived here, but managed to attend the trial which began Tuesday morning, riding to and from the courtroom in different hacks. Yesterday a doctor was called to see him where he has been staying with a colored family in a Spring street basement, and his ailment was pronounced smallpox in the second stage.

Hanged by a Mob.

ST. LOUIS, May 17.—A special to The Republic from Jefferson, Tex., says: Henry Scott, colored, who was arrested for the murder of his 6-year-old stepdaughter, was delivered by the magistrate to the deputy sheriffs to take to the jail in this city. On their way to town they were encountered by a mob of about 100 negroes who took Scott into an adjoining swamp and hanged him to an oak tree, where he remained till found by the sheriff. The negro confessed the murder and said his reason for murdering the child was that she was the cause of frequent quarrels between him and his wife. No arrests have been made.

MURDERED BY WHITE CAPS.

One Confesses and Troops Are Called Out to Prevent Lynching.

BIRMINGHAM, Ala., May 17.—Lamar county is in a state of great excitement over the cold-blooded murder of Spencer Atkins, a prominent farmer and good citizen, by a band of White Caps, and developments that followed. A few nights ago White Caps went to Atkins' home and called him to the gate, where they seized, bound and gagged him, and carrying him to the woods, a quarter of a mile away, riddled his body with bullets. Monday Drew Nealand was arrested and placed in jail at Vernon.

Tuesday morning he made a confession to Sheriff Pennington to the effect that he was a member of the party of White Caps who murdered Atkins, and that there was an agreement among them that if any of their members were arrested the others were to come by night and rescue them from jail. He gave the sheriff the names of the members of the gang, and three more of them, Alex Jorden, Allen Jordan and Henry Hawkins, were arrested Tuesday.

Open threats have been made by friends of the prisoners to rescue them and Governor Jones placed the military at the disposal of the sheriff, who has called out the Jones Rifles of Vernon. Many desperate characters live in the mountains of Lamar county, which was the home of the once famous Burrows gang of train robbers, and serious trouble is apprehended.

BOSTON FIRE SUFERERS.

A Few Children Missing but Are Probably Safe.

BOSTON, May 17.—Yesterday 35 children were reported missing as a result of the great conflagration, but later in the day the number was greatly decreased. Many of the little ones were in the homes of strangers, who cared for them until their relatives were found. Several little ones are yet to be found by their friends, but they are undoubtedly safe in the keeping of people in the vicinity of the fire.

A special service with addresses by prominent Boston clergymen for the benefit of the homeless was held in the church last night. The edifice was crowded and the collections amounted to several hundred dollars. The fund in all now amounts to over \$1,000. The money collected at the time of the Johnstown flood and not needed, has been appropriated by the city to go into the relief fund.

The loss by the fire is now estimated at \$65,000.

FLOODS IN WISCONSIN.

Great Destruction Done Along Black River and Its Tributaries.

BLACK RIVER FALLS, Wis., May 17.—The biggest flood known here for years has visited this section of the state and the destruction of dams, bridges and stock along Black river and its tributaries is large. The Dells' dam, about 20 miles above here and the most important on Black river, was in danger of being swept away and a force of men were ordered to blow up a portion of it to save it from entire destruction.

Several families have been forced to abandon their homes to save themselves in the lower portion of this city. The loss of dams and bridges about here will amount to thousands of dollars.

His Victim Dead.

JERSEY CITY, May 17.—Katie Rupp, the young woman who was shot by Berhard Altenberger, her lover, near the Snake Hill almshouse last Monday, died last night in the hospital. Altenberger, who is now in custody at Utica, N. Y., will be extradited and placed on trial for murder in the first degree. Miss Rupp made an auto-mortem statement which corresponded with the account already given of the shooting. Thus far Altenberger's only explanation is that he shot her because she was a Protestant and he a Catholic and he knew he could not marry her.

Switchmen's Convention.

EVANSVILLE, Ind., May 17.—The biennial convention of the Switchmen's Mutual Aid association is progressing slowly. The enforced absence of Grand Secretary Treasurer Shusrot by illness, has been the cause. His books and accounts arrived yesterday and it is expected that business will progress more rapidly now. Yesterday's business consisted in reading delayed reports and the appointment of standing committees. It is thought that Grand Master Wilson will be re-elected and possibly all the other grand officers.

CHIPPEWA FALLS, Wis., May 17.—The loss by the flood of the past two days in the Chippewa valley will aggregate about \$500,000, the heaviest losers being the Omaha and the Wisconsin Central railroads, which lose bridges and tracks. The contents of many houses in this city were ruined.

Headless Trunk Found.

OCALA, Fla., May 17.—A headless trunk was found in a pond near here, which is supposed to be the body of Ralph R. Teller of Keokuk, Ia., who came here more than a year ago. A man named Cook, who was last seen with him, will be arrested.

Heid a Fruit Train.

OGDEN, U. T., May 17.—Seventy men, who came from the west, forcibly took possession of a through fruit train on the Union Pacific road and held it five hours. They were induced to give it up by promise of the city marshal that they should have provisions. They agreed to go east on foot.

Moody's Daughter Married.

EAST NORTHFIELD, Mass., May 17.—At 6 o'clock yesterday evening, in the new Congregational church, Miss Eliza Moody, daughter of Evangelist Moody, was united in marriage to Arthur Percy Fitt of Chicago.

DEMOCRACY, Defalcation, Deficit, Disaster and Damnation are aptly alliterative aphorisms, always applicable and alike appropriate.—Public Ledger.

Republicanism, Ruin, Rotteness, Rapine and Robbery are "aptly alliterative aphorisms, always applicable and alike appropriate."

Some very complimentary notices of Mr. Paynter's candidacy for Appellate Judge are published elsewhere in this issue. Without disparaging the claims of any of the other aspirants, we believe Mr. Paynter merits the good things said of him, and possesses most excellent qualifications in every way for the position he seeks.

The Bath County Banner, a Republican paper of course, says Hart was nominated "without much ceremony and less enthusiasm." It's very evident to everybody who was present at the late convention that the editor of the Banner was not in attendance and is simply "talking through his hat." A more enthusiastic convention has never been held in this district.

The anti-Cleveland Democrats are again knocked out. They have been saying all along that the administration would not be endorsed by the Missouri Democrats, but at the State convention out there this week, this resolution was adopted:

We commend the patriotism, integrity, ability and courage of Grover Cleveland, and applaud his action in promptly approving the repeal of the Federal election law; his earnest efforts in behalf of tariff reform, the purity, economy and vigor of his administration.

SOME Republicans profess to be very much concerned over the German market, and say the Democratic tariff bill will drive that trade from us. At the same time some Republican Congressmen vote as if they didn't care a snap for our English trade, yet we sell Great Britain more than thirty times as much wheat and flour as we do to Germany, nearly four times as much cotton, fifteen times as much canned beef, 1,500 times as much fresh beef, and so on. As to hog products, we sell Great Britain forty times as much bacon, fifty-five times as many hams and nearly fifteen times as much pork as we do to Germany. The policy of the Republicans is to fight England at every point, and yet no other country on the globe buys as much of our products as Great Britain.

Maysville vs. Portsmouth To-morrow.
The game of ball to-morrow afternoon should attract a large crowd to the fair grounds. The Portsmouth boys are good players and will put up a strong game, so all lovers of the sport should be present. The ladies are especially invited to attend. Everything will be done to insure them an enjoyable afternoon. The game will be called at 3 p. m., and it will probably prove one of the most exciting of the season.

The Modern Mother.
Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Record Breaker.

Never in the history of the jewelry business could you buy as handsome a watch for as little money as you can get one now at P. J. Murphy's, the leading jeweler. His stock is the largest in the city and his prices are always the lowest.

GOOD WORDS FOR PAYNTER.

"Savoyard" Thinks He is Cut Out For a Judge—Other Complimentary Notices.

WASHINGTON, April 13.—[Special Correspondence.]—The Hon. Thomas H. Paynter will retire from Congress at the close of his present term and seek an election to the Court of Appeals of Kentucky. By temperament, by education, by habits of life and trend of mind, Mr. Paynter is much better suited for the bench than he is for Congress, and he is much above the average Congressman. His mind is peculiarly judicial, and his Congressional career has been in that line. He is one of the leading members of the Committee on Elections, and has done more work in that committee than any of his colleagues on it, and, uncompromising Democrat that he is, I have frequently heard his fairness and impartiality commended by Republicans whose cases he adjudicated.

Paynter loves the law, for the reason that his mind is eminently legal, as the lawyer's phrase is. He has made several speeches in Congress on political subjects, and they were good speeches, too; but they were far less able than his speeches on the purely legal questions involved in the reports of the various Committees on Elections to which he has belonged. Service on that committee is a good school for one who would be a Judge. It is itself a Court of Appeals where causes involving abstruse and nice questions of law are adjudicated. I have reason to know that in the present Congress Paynter's is the leading mind on the committee, admittedly so.

In matters of Democratic policy I have frequently differed with Paynter, but I could not but admire the man for the pertinacity and steadfastness with which he clung to his opinions. He has firmness and decision, qualities almost as indispensable in a Judge as honesty and ability. He likewise has ceaseless industry, and that is another and very great quality for the Judge. I don't know who is running against him, and I don't care; I have written the foregoing because, in the past, I did Mr. Paynter an injustice in some of my letters to The Times. I know The Times is man enough to correct an error, and I hope I am.—Louisville Times.

Hon. T. H. Paynter will be a candidate for the Democratic nomination for Appellate Judge from this district, as we are informed. If such is the case he should have the support of every Democrat in Fleming as well as all other counties composing his Congressional district. He has made us an excellent Representative in Congress, and has fully justified his friends in the confidence they have always reposed in him. He is a good lawyer and a close student of the law, and he will make an excellent Appellate Judge. So we ask our readers not to pledge themselves to any outsider until Mr. Paynter announces his intention.—Flemingsburg Times-Democrat, April 14.

The many friends of Hon. Thomas H. Paynter are urging his candidacy for the office of Judge of the Court of Appeals, and should he decide to make the race a vigorous canvass may confidently be expected. The office is one of the greatest importance to the people of the State, and for which Mr. Paynter is eminently qualified. Of untiring industry, a capacity for the closest investigation, a large and successful experience in the practice of his profession, a deep sense of justice, a vigorous and trained intellect, a profound knowledge of the law and highest regard for the rights of all before the law, he will rank among the ablest jurists of the State. The Democrats could make no better selection. He will reflect credit upon his party, the bench and the State.—Greenup Gazette, May 9.

FASHION AND ART JOINED.

They Get Together With Very Good Effect
In Princess Gowns.

There is a great deal to be said in favor of the princess gown. It is graceful, never common looking and has an air of exclusive fashion which pertains to few other garments. It is seldom that an article of attire is both fashionable and artistic. Fashion usually shuns the studio, or mangles and garbles its effects beyond recognition, as was shown in the Greek draperies, combined with starched collar and cuffs and French corset, which were quite the mode three or four years ago. Occasionally, however, she joins forces with art, although half unwillingly and for a very brief time. The Josephine styles not yet passed out of date are a fair example of her spasmodic good taste. The princess modes are another, although she spoils them by insisting on the compressed waist as the proper form for setting them off. In mediæval times the princess gown was the accepted dress of women. It was admirably fitted to the natural figure with

TAFFETA PRINCESS GOWN.

out any distortions of whalebone or ermine, and with its winged sleeves falling away from the tight ones beneath, its clinging, trailing skirts caught up by being drawn through the drooping girdle, it might fairly rank with antique draperies in beauty and artistic effect. Even now, altered as it is and modified to suit our modern craving for "smartness" and "go" rather than for beauty, whose fundamental laws are changeless, it is far preferable to the round waist and belt, which cut the figure squarely in two and convert into angles whatever whalebone has left of delicately related curves.

Backed by a skillful and obedient dressmaker and money enough to buy the most expensive materials, a few women venture to consult their own taste in preference to the judgment of the multitude, but the rank and file follow my leader, as indeed moneyless women must in order not to appear shabby. What is artistic independence in brocade is dowdiness in cashmere. Since the conventional form is easy to fit and easily obtained it is not difficult for poor women to appear fashionable, and a princess gown is refined looking, even in calico.

A sketch is given of a princess costume made of taffeta silk. It is open at the side over a skirt of the same material and is slightly draped. The silk jacket has revers and collar faced with heavy cream lace. The gigot sleeves have lace cuffs, and the gown is bordered with jet.

LAYTHAM CHAPEL.

Elders Lively, of Alabama, and Carnell, of Tennessee, visited Laytham Chapel, preaching two sermons each on Saturday and Sunday last. The discourses defined the doctrines of Old Baptists more fully than we hear from the average preacher. They spoke the wisdom of God in a mystery, proving that sinners are saved by grace without any conditions—Christ paid it all. They were both very interesting men outside of the pulpit as well as in it. Elder Carnell was accompanied by his third wife—he being her second husband, he only thirty-one years old and she twenty-eight. The church and the home interviews were pleasant and profitable, the prayers effectual and the singing full of worship. What food for reminiscence in those old hymns! Their melody is like a heavenly chant. Replete with religion, with love, sweet with praise, radiant with hope they sing the spirit to the realms above—the shady groves and still waters of the chalice of life.

Elmer Eubanks, the visiting preacher left Monday for the East to minister to the series of Baptist Associations to be held during the next six weeks. Elder Eubanks, the pastor, will represent Laytham Chapel.

Facts Are Truer Than Fiction!

The question has been asked of us lately why we do not advertise more, and in reply we wish to say that we do not think it profitable to advertise unless we can make good every statement made in an advertisement. We can not say to the public that we are selling goods for 50 cents on the dollar, for this would not be true,

BUT WE CAN SAY, AND TRUTHFULLY SO.

THAT WE ARE SELLING BETTER GOODS FOR LESS MONEY

THAN ANY ONE ELSE IN THE CLOTHING TRADE.

It is the fact that nine out of every ten who see the good, stylish and substantial CLOTHING we handle, buy before leaving our house, and when we once sell a person they always have a kind word to speak about our way of doing business, taking care of the old customers and making all the new ones we can. Kindly call and see our goods before purchasing. We will treat you right and give you honest goods for your money. Respectfully,

THAT STATE INSPECTOR'S REPORT.

The Officers of the Maysville and Lexington Turnpike Company Claim it is Misleading.

The BULLETIN yesterday copied a specimen from Frankfort to the Courier-Journal giving the report of State Inspector Gardner showing the result of his investigation into the affairs of the Maysville and Lexington Turnpike Company. The officers of the company claim that Mr. Gardner's report is misleading, and they give figures to substantiate their claim. Take the figures for 1894, for example. Mr. Gardner says the balance cash in hands of Treasurer is \$14,756.18. This is the total, it is true; but of this sum \$4,393.65 is to the credit of stockholders who have not called for their dividends. Besides, out of the remaining \$10,362.53 a dividend of 2 percent was declared on 3,874 shares in April of this year, which further lessens the cash on hand by \$7,748, which has also passed to credit of stockholders, and reduces the actual amount in hands of Treasurer belonging to the company to \$2,614.53, instead of \$14,757.18 as shown by Mr. Gardner's report.

The dividends are placed to the credit of the stockholders as soon as declared and while the money may still be in the hands of the Treasurer, yet it belongs really to the stockholders, and not the company.

HEAVY RAINSTORM.

Considerable Damage Done by a Down-pour in Minnesota.

ST. CLOUD, Minn., May 17.—The heaviest rainfall known in many years poured down in torrents here and did much damage in the way of washouts. Many cellars in the business portions of the city were flooded. Five hundred feet of track on the Great Northern, south of this city, was washed out, and five culverts on the Northern Pacific are out between Sank Rapids and Rice.

Reports as far west as Alexandria and east to Milaca show much damage to the Great Northern track. The Elk river bridge on the Pinckney branch, is in bad condition and 60 feet of the big fill at this point has been washed out. Bridges and culverts are washed out all around here.

A big landslide occurred on the Great Northern between Nelson and Alexandria and a bad washout occurred between Dalton and Ashley.

The storm was the worst in 30 years. Sauk Rapids suffered much from washouts.

MURDER AND SUICIDE.

An Old Lady and Her Son Found Dead in a Tenement House.

NEW YORK, May 17.—Lena Sansmuler, aged 90, and her son, Charles, aged 50, were found dead last night in their rooms in a tenement house in East Twelfth street, their throats cut from ear to ear, and their heads almost severed from their bodies. A blood-stained razor on the floor told the story of murder and suicide.

The old lady was in her night dress, and her position indicated that the son had taken hold of her head with his left hand as he used the razor with his right. As he lay on the floor the weapon was still in his hand. He had evidently cut his own throat instantly after killing his mother. On a table was found 12 cents and in a box \$4.71. A bankbook indicated that there was \$16 to the son's credit. He had been out of work for some time, and it is supposed fear of poverty prompted the tragedy.

Murder by Proxy.

NEW YORK, May 17.—A few evenings ago Julia W. Morris was married by Rev. Father Halpin, in the chapel of St Francis Xavier, to Frank P. Gearly of this city, who at the time of the marriage was dying in El Paso, Tex. The bridegroom was represented in the ceremony by the bride's cousin, Robert J. Hoey, who made the necessary responses and signatures as Mr. Gearly's proxy. The two lovers had been engaged for a long time, and Miss Morris wished to hear the name of her betrothed even though she could do so only as a widow.

Family Poisoned.

DECATUR, Ind., May 17.—Word has just been received from Monroe, that the family of Mart Alder were poisoned by some unknown poison. A brother of Alder called at the house this morning and found the entire family, consisting of Alder and wife and two small children, prostrated on the dining room floor, the two children dead, the mother was beyond the reach of medical aid and Alder very ill. It is thought that some enemy of the family put poison in the well.

Sullivan's Wing of Randall's Army.

TOLEDO, May 17.—W. H. Sullivan's wing of Randall's army arrived here yesterday, and after a consultation with authorities, was permitted to go into camp in a deserted stockyard in East Toledo. The army will rest until Friday and endeavor to receive recruits. None but American citizens with a knowledge of the English language and the object of the march will be accepted. There are 72 men in the band, and their uniform consists of cape ulsters and red felt hats.

Coxey to Run for Congress.

MASSILLON, O., May 17.—After being chairman of the Democratic central committee for five years, Peter Smith has come out in favor of J. S. Coxey for congress. The financial claims of Mrs. Coxey No. 1, have been settled and her former husband is expected back in Massillon on May 20.

Rudolph Insane.

SAN FRANCISCO, May 17.—Jake Rudolph, the politician who last week attempted to shoot Business Manager J. P. Elliott of The Chronicle, has been adjudged insane and ordered by Judge Levy to be committed to the Stockton asylum. The charge of assault to murder, however, has not been dismissed.

No Use for Them.

DERRY, Pa., May 17.—The common-weal, under Commander Galvin's command, arrived here with 112 men in line. A little food has been given them in charity, but as a rule the people have no use for them.

Charged With Fraud.

PARIS, May 17.—M. Comte, director of the Credit Generale de Paris, in the Rue de Chataudun, has been arrested on a charge of fraud. The police have seized the books of the firm.

Met an Awful Death.

MARTINSBURG, W. Va., May 17.—Three colored men, Zeph Silvers, William Barber and Jack Fuller, perished in cleaning a cesspool connected with the Continental hotel.

WEEKLY CROP REPORT.

Conditions Highly Favorable Through-out the State and All Vegetation Advancing Rapidly.

The weather conditions of the past week did not vary materially from those of the preceding one. The temperature was generally above the normal, and despite the daily thunder showers the amount of sunshine was very near the average. As was the case last week the rainfall was very unevenly distributed. It came mainly in the form of local showers, which were most frequent in the western half of the State, though all sections, except a few isolated districts, received an amount equal to or slightly in excess of the normal. In some instances these storms were accompanied by violent wind and hail, from which damage resulted, especially in Hancock and Monroe counties. Taking the State as a whole, however, the conditions may be regarded as highly favorable, and all species of vegetation have advanced very rapidly during the week.

By far the larger part of the corn crop is in the ground, only a few fields in the lowlands remaining unplanted. There is a general complaint of damage to young corn from cut worms. Last week their presence was confined mainly to the southern counties, but since then, they appear to have spread throughout the entire State. In many sections the damage to corn has been so great as to necessitate replanting. But for this trouble, the outlook for the crop is most favorable. Some fields have progressed so far as to permit of their being worked over.

Wheat looks exceptionally fine, and the prospect for a good crop is excellent. The only complaint is that the growth is somewhat too rank. In the southern and western counties it is heading very nicely.

The fine appearance of grasses of all kinds indicates an unusually large hay crop. Clover is not doing well and will not probably recover from the effects of unfavorable weather conditions earlier in the season. The outlook for oats is not promising except for that portion planted very late.

The reports regarding tobacco are somewhat conflicting, but it is believed that the average condition of the plants is good. There is considerable complaint that they are undersized, and that in consequence, the transplanting season will be delayed; also of injury from insects. Some setting has been done during the week. The ground is in good condition for this work owing to the recent rains.

Garden truck is growing finely, except potatoes, which are reported to be somewhat backward.

Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, coughs and colds, each to be guaranteed—Electric Bitters, the great remedy for liver, stomach, and kidneys. Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more. Sold at J. Jas. Wood's drug store.

A MEETING of the Alumnae of the Girls' High School is called for Friday afternoon at half-past 2 o'clock. A full attendance is urged.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
